[My work has been covered extensively in the media. I have done over 470 interviews for television news and documentaries, radio, newspapers, and magazines, including BBC, CNN, NBC, ABC News, PBS, CBC, Discovery Channel, Financial Times, New York Times, Washington Times, The New Yorker, Der Spiegel, The Independent, the Telegraph, The Sunday Times, The Guardian, The Observer, Times Higher Educational Supplement, Le Devoir, Toronto and Ottawa Suns, L'Hebdo, Utildnings Radion, Boston Globe, San Diego Union-Tribune, The Sunday Herald, Nature, New Scientist, Science & Avenir, Volkskrant, Discover Magazine, Forbes, and many others.]

1. *Bloomberg Business Week*. December 2011. Interviewed about risks to humankind for “The End of the World as We Know It” segment. http://images.businessweek.com/cms/2011-12-14/etc_opener52_01_popup.jpg (accompaniment to “Guardians of the Apocalypse” article: www.businessweek.com/magazine/guardians-of-the-apocalypse-12152011.html).
2. BBC Radio 3. (British radio). December 2011. Interviewed for “Night Waves” programme about over-population, future challenges relating to technology and ethics. www.bbc.co.uk/programmes/b0186dpl
3. *Le TEMPS* (Swiss daily newspaper). December 2011. Interviewed for special issue about the new frontiers of intelligence.
4. *Capital* (Bulgarian daily newspaper.) December 2011. Interviewed about the role of futurists in the decision making process, whether predictions will become more accurate and more specific, and what are the biggest trends in futurology today?
5. James Martin. (film project). November 2011. Interviewed by James Martin for a promotional film addressing global issues of the future.
6. *BBC Horizon*. (science programming). November 2011. Interviewed for promo documentary on artificial intelligence and Alan Turing.
7. Jay Scheib's “World of Wires: Simulated Cities/Simulated Systems”. (theatrical performance piece). Interviewed on November 2011 as this artistic enterprise was inspired by “Are You Living in a Computer Simulation? World Premiere in New York City in January 2012, with international tour to follow. www.thekitchen.org/wire and www.jayscheib.com/wires.
8. *Faszination Apokalypse: Mythen und Theorien vom Untergang der Welt*. Interviewed by Thomas Grüter about end-of-the-world scenarios and probabilities. (Published November 2011 in German). www.amazon.co.uk/Faszination-Apokalypse-Mythen-Theorien-Untergang/dp/350215192X
9. *Scientific Etonian*. (Eton College's scientific student newspaper). November 2011. Interviewed about artificial intelligence, superintelligence, and the simulation argument.
10. *BBC News* (technology news website). October 2011. Interviewed about “ideas that could change the world” and how to predict the future. www.bbc.co.uk/news/technology-15483792

11. *Vetandets värld (Swedish radio)*. October 2011. Interview for programme about technology's accelerating development and transhumanism.
12. *Vetandets värld (Swedish radio)*. October 2011. Interview for radio programme: "Man Becomes Machine, Machine Becomes Man: The Next Step in Human Evolution?"
13. *The Oxford Student (newspaper)*. October 2011. Interviewed about existential risk.
<http://oxfordstudent.com/2011/11/30/nick-bostrom-on-the-future-of-humanity-institute/>
14. *John Nyzell (University of Lund)*. September 2011. Interview about liberal eugenics and human enhancement.
15. *Cosmos (Australian popular science magazine)* September 2011. Interviewed for "Made to Order" about the ethical questions of technology, medicine, and post-humanism.
www.cosmosmagazine.com/issues/2011/42/
16. *Sciences et Avenir (French monthly magazine)*. September 2011. Interviewed about the future of mankind.
17. *New Scientist*. September 2011. Interviewed for "Ultimate Guide to the Multiverse" about multiverse theories and simulated universes. www.newscientist.com/article/mg21228402.200-ultimate-guide-to-the-multiverse.html.
18. *ISIS Magazine. (Oxford University student publication)*. September 2011. Interviewed about human enhancement.
19. *Sveriges Radio (Swedish radio)*. August 2011. Interviewed about technology, transhumanism, and communication, <http://sverigesradio.se/sida/default.aspx?programid=2946>
20. *Channel 4 / Wellcome Trust. (television documentary.)* August 2011. Interviewed about the ethics of technology and medicine.
21. *Scientific American (Rita J. King guest blog)*. July 2011. Interviewed for "Technogenic Disasters: A Deadly New Normal for the Media", www.scientificamerican.com/blog/post.cfm?id=technogenic-disasters-a-deadly-new-2011-07-06
22. *Science & Vie (French leading science/popular magazine)*. June 2011. Interviewed about global catastrophic risks
23. *Sole Møller (Danish freelance journalist)*. June 2011. Interviewed about brain training.
www.solemoller.com
24. *New Scientist Magazine*. June 2011. Interviewed about the simulation argument.
25. *The Ego Trick: What Does It Mean To Be You? (book publication by Julian Baggini, Granta Books, 2011)*
Interviewed about the ethics of enhancement and transhumanism.
26. *Current Sponge (promotional pilot film: "The Real Limitless")*. June 2011. Interviewed about cognitive enhancement, physical performance and life expectancy enhancement, and post-human society.
27. *Daan Paans (photographer)*. June 2011. Photographed for documentary about singularity, transhumanism, and longevity.
28. *Transhuman (documentary film by Titus Nachbauer)*. World Premiere in Amsterdam, May 2011. (Filmed January 2011.) Interviewed about life extension, future technology and the risks related to machine intelligence: www.transhumandoc.com/

29. *BBC*. May 2011. Interviewed for promotional series about big picture questions relating to politics and science, the human experience, the world we live in and the possibilities the future holds.
30. *Philosophy Bites* (“*Bioethics Bites*”, *BBC podcast*). May 2011. Interviewed on bio-ethics and the simulation argument.
31. *Peapie Films* (*pilot film for BBC Television*). May 2011. Interviewed about immortality, and the role of knowledge as potentially catastrophic for humanity.
32. *Malcolm Boyden Show, BBC Radio. (UK)*. May 2011. Interviewed about the impacts of future technology, and about the risks and opportunities of those technological advances.
33. *The European* (*German online magazine*). May 2011. Interviewed about the future of humanity and the ethics of technological development. <http://theeuropean-magazine.com/282-bostrom-nick/283-perfection-is-not-a-useful-concept>
34. *Dagens Nyheter* (*Swedish broadsheet*). May 2011. Interviewed about the future of machine intelligence.
35. *The Economist* (*Japanese edition*). April 2011. Interviewed about whether political leaders may have legitimate reasons to lie, and if so, what conditions and limits should that apply.
36. *The Boston Globe* (*American newspaper*). April 2011. Interviewed about the fate of humanity in the inconceivably distant future.
37. *IWC Media* (*BBC/Channel 4 Science pilot programme, UK*). March 2011. Interviewed about wormholes, time travel, parallel universes, and whether we live in a simulation.
38. *Wired UK* (*magazine*). March 2011. Interviewed about what developments will enhance longevity in the next decade.
39. *Vrij Nederland*. (*Dutch magazine*) March 2011. Interviewed about human enhancement, the future of humanity, and the intelligence explosion.
40. *Fast Company Magazine* (*American magazine*). March 2011. Interviewed about transhumanism and human enhancement.
41. *2011 Edge Question*. March 2011. Contributed “A Game of Life and Looking for Generators”. Distributed by John Brockman, the answers for 2011 addressed the question, “What scientific concept would improve everyone’s cognitive toolkit?” <http://edge.org/annual-question/what-scientific-concept-would-improve-everybodys-cognitive-toolkit>
42. *Espace Franco Images* (*Canadian television documentary*). February 2011. Interviewed about how science and technology are impacting humanity, and how to examine future scenarios .
43. *Fast Company Magazine* (*American magazine*). January 2011. Interviewed about the philosophy and biology of human enhancement.
44. *Andrea Giulivi* (*art project: “Scores”*). December 2010. Interviewed by film-maker for art project about crucial considerations .
45. *KZSU-FM* (*Stanford University radio station, American*) for “*Hearsay Culture*” *podcast*. November 2010. Interviewed about “crucial considerations,” ranging from artificial intelligence to information hazards. www.hearsayculture.com/?p=694
46. *The Meaning of the 21st Century* (*documentary film*). October 2010 release. Interviewed by James Martin on transhumanism, human extinction scenarios, and future technologies. www.jamesmartin.com/film/watch.cfm (Bostrom at 39:25, and 59:47)
47. *Mehr News Agency*. (*Iranian*). October 2010. Interviewed about writing in the humanities.

48. *BBC Horizon (flagship science programme on BBC Two, UK)*. October 2010. Interviewed about human evolution.
49. *FreedomLab Future Studies Institute (EU Thinktank)*. October 2010. Interviewed about the impacts technology and society have upon each other.
50. *De Groene Amsterdammer. (Dutch magazine)* October 2010. Interviewed about transhumanism.
51. *Chilliwack Times (Canadian magazine)*. September 2010. Interviewed about the simulation argument.
52. *Mehr News Agency. (Iranian)*. September 2010. Interviewed about philosophical approaches to textual analysis.
53. *The Huffington Post (blog.)* September 2010. Quoted in article about cosmological views (computer simulation). www.huffingtonpost.com/seth-shostak/who-or-what-built-the-uni_b_706185.html
54. *Institute for Ethics and Emerging Technologies* and also *Sentient Developments (blogs)*. August 2010. Quoted in article about human enhancement: ieet.org/index.php/IEET/more/dvorsky20100820
55. *Institute for Ethics and Emerging Technologies* and also *Sentient Developments (blog)*. August 2010. Referenced as an expert in Singularity Studies: ieet.org/index.php/IEET/more/dvorsky20100827.
56. *Institute for Ethics and Emerging Technologies* and also *Ethical Technologies (blog)*. August 2010. Quoted in article about transhumanism: ieet.org/index.php/IEET/more/4167
57. *Science for Humanity's "Global Risk Register" project*. August 2010. Interviewed about the need for a global risk register and how the GRR community can address catastrophic risks.
58. *Der Standard (Austrian daily newspaper)* and *Fleisch (Austrian cultural magazine)*. August 2010. Interviewed about the future of humanity in the context of the interdisciplinary mélange of Humanities and Natural Science.
59. *BBC Horizon (flagship science programme on BBC Two, UK)*. August 2010. Interviewed for documentary about the nature of reality and Bostrom's computer simulation theory.
60. *BBC Horizon (flagship science programme on BBC Two, UK)*. August 2010. Interviewed for documentary about the future of medicine, specifically new transplant technologies, artificial and cloned organs, and neuroprosthetics.
61. *Steadfast Television (UK)*. August 2010. Interviewed about genetics and envisioning a world where reproduction is possible without the male gender.
62. *New Scientist Magazine*. August 2010. Interviewed about the results of Harvard's "Hard Problems in Social Science" Symposium (from April 2010).
63. *Twister Films for National Geographic*. August 2010. Interviewed about parallel worlds and the multiverse.
64. *Focus Magazine (Italian monthly magazine)*. August 2010. Issue 214. Interviewed as one among 12 individuals considered by the magazine to be among "the world's most brilliant interdisciplinary thinkers".
65. *Mehr News Agency. (Iranian)*. August 2010. Interviewed about the impact of technology on education, particularly how online and traditional education environments compare.
66. *The Guardian. (UK newspaper)*. July 2010. Interviewed about planning for global catastrophic risks.

67. *Men's Health (UK magazine)*. July 2010. Asked about how consumer technology and social networking bring drawbacks as well as benefits, and how the savvy consumer can minimise the former and maximise the latter.
68. *Mehr News Agency. (Iranian)*. July 2010. Interviewed about philosophical theory and practice: eastern vs. western philosophers.
69. *James Shaughnessy and IDDQD Productions. (documentary)*. June 2010. Interviewed for a documentary about 'crucial considerations,' the singularity, and the possible consequence of digital uploading.
70. *Dominique Lestel and Laboratoire d'Eco-anthropologie & Ethnobiologie*. June 2010. Interviewed about transhumanism and transanimalism for research grant work on post humanism and post animal conditions.
71. *Oxford Student Newspaper*. June 2010. Asked about the merits of funding for manned space exploration.
72. *Barry Gibb and The Wellcome Trust (documentary)*. June 2010. Interviewed about the future impacts of ageing research and themes of ageing and longevity.
73. *Eco-ethology & Cognitive Ethology Research Group at the Museum National d'Histoire Naturelle, Paris*. June 2010. Interviewed by Dominique Lestel for research grant on post humanism , transhumanism and post animal research.
74. *I, Science Magazine (Imperial College, London)*. June 2010. Interviewed about ethical concerns for implantable technology and human enhancement.
75. *ITV Sci-Fi/Science (UK television)*. June 2010. Interviewed for "Physics of the Impossible Series 2".
76. *Mehr News Agency. (Iranian)*. June 2010. Interviewed about the ethics of education.
77. *Mehr News Agency. (Iranian)*. June 2010. Interviewed about metaphilosophy and how twentieth century philosophy compares to the philosophical achievements of earlier centuries.
78. *The Forum (BBC World Service programme)*. June 2010. Interviewed why finding life on Mars could be very bad news for mankind. www.bbc.co.uk/worldservice/specials/1246_the_forum/page39.shtml
79. *Mladina Weekly (Slovenian magazine)*. June 2010. Interviewed on ageing, pension reform and life expectancy issues.
80. *The Times Online Magazine*. May 2010. Interviewed about nuclear terrorism and the accuracy of expert assessment.
81. *Newton Magazine (Italian science magazine)*. May 2010. Interviewed about anti-aging medicine, human enhancement, and uploading.
82. *Filosofia (Brazilian magazine)*. May 2010. Interviewed about transhumanism. www.estropico.org/index.php?option=com_content&view=article&id=180:una-storia-del-pensiero-transumanista-di-nick-bostrom&catid=42:estropia--transumanesimo&Itemid=81
83. *Philosophy Now (bimonthly magazine)*. May 2010. Asked about the ethics of enhancement.
84. *Mehr News Agency. (Iranian)*. May 2010. Interviewed about the relationship between ethics/politics in the public and private spheres. www.mehrnews.com/en/newsdetail.aspx?NewsID=1089965, reprinted in *The Tehran Times* (daily newspaper): www.tehrantimes.com/Index_view.asp?code=220436
85. *FreedomLab Future Studies EU Thinktank (Amsterdam)*. May 2010. Interviewed about the impact of technology on society (and vice-versa).

86. *de Volkskrant Newspaper (Amsterdam)*. May 2010. Interviewed about human enhancement.
87. *Utbildningsradion (UR) / Swedish Educational Broadcasting Company*. (television series promo). May 2010. Interviewed about existential risks.
88. *Luke Mason Documentary: Compassion, Our Greatest Flaw? An Exploration into What It Means to Be Human in the Post-Modern Age*. May 2010. Interviewed about the evolution of humanity and human consciousness.
89. *Cherwell School Newspaper (UK student publication)*. April 2010. Interviewed about the dangers of being dependent upon technology in the context of volcanic disruptions.
90. *BBC Science / BBC4. (UK television)*. April 2010. Interviewed about astrobiology and the search for extra terrestrial life (to commemorate the 50th anniversary of the Drake Equation and the inception of SETI).
91. *Astronomy Now (magazine)*. March 2010. Interviewed for 50th anniversary of SETI about transhumanism and the existential risks of sending signals into space.
www.astronomynow.com/news/n1005/04seti6b/
92. *Time Magazine. (American)*. April 2010. Interviewed about cognition, enhancement and brain exercises. www.time.com/time/health/article/0,8599,1983306,00.html
93. *Jyllands-Posten (Danish newspaper)*. March 2010. Interviewed on singularity and artificial intelligence.
94. *The Smart Manager (Indian magazine)*. March 2010. Asked about the link between Executive Education, business management and the wider University and on how future scenarios work can impact Indian growth and development.
95. *Intelligence in Lifestyle, IL Sole 24 Ore (Italian monthly magazine)*. February 2010. Interviewed about research on human enhancement and global catastrophic risks.
96. *The Bulletin of the Atomic Scientists*. February 2010. Interviewed about global catastrophic risks , such as those from nuclear and biological weapons.
97. *Business Voice (The CBI magazine)*. February 2010. Interviewed about the future of human enhancement technologies, especially the social and business impacts of biomedical enhancements.
98. *BBC Science "Future Human" (UK television series)*. February 2010. Interviewed about how evolution and scientific advancement will direct the future of the human race.
99. *World Affairs Monthly*. January 2010. Interviewed about the future of the world.
100. *103.2 Dublin City FM (Irish radio)*. January 2010. Interviewed about human enhancement.
101. *2010 Edge Question*. January 2010. Contributed "More Still To Come.". Distributed by John Brockman, the answers for 2010 addressed the question, "How is the Internet changing the way you think?" <http://edge.org/response-detail/24/how-is-the-internet-changing-the-way-you-think>
102. *"August Podcast": TPM: The Philosophers' Magazine. (podcast) 2009*. Interviewed about a possible future without death and disease. www.philosophymonthly.com/?p=54
103. *Mehr News Agency. (Iranian)*. 2009. Interviewed about the relation between ethics and politics
104. *i (Portuguese newspaper)*. 2009. Interviewed about human enhancement, artificial intelligence, and existential risks.

105. *Bloomberg News (American television)*. 2009. Interviewed about the year that was and prospects for the coming year and decade, within the areas of geopolitics and terrorism, new media and the Internet, and the environment.
106. *Thought Economics. (blog)*. 2009. Interviewed about the singularity, machine intelligence, the future of human evolution, and existential risks.
107. *Discovery Channel (Canadian television documentary)*. 2009. Interviewed about philosophical issues related to virtual reality and time travel and the simulation argument.
108. *National Geographic.com*. 2009. Interviewed about future human evolution.
109. *OWL Magazine (Oxford)*. 2009. Interviewed about various topics, mainly related to human enhancement.
110. *Easy Living (UK magazine)*. 2009. Interview about human enhancement, existential risks, and related topics.
111. *New Scientist Magazine*. 2009. Interviewed for an article based on my paper on information hazards.
112. *ABC (Australian Radio, Gold Field)*. 2009. Interviewed about human enhancement and global catastrophic risks.
113. *Radio Slovenija*. 2009. Interviewed about the future of human evolution.
114. *H+ Magazine. (Humanity + publication.)* 2009. Interviewed about potential risks from NBIC technologies and about the ethics of enhancing or “uplifting” animals.
115. *Marie Claire Magazine (Italian edition)*. 2009. Interviewed about human enhancements.
116. *ABC Radio (Australia, Kimberly)*. 2009. Interviewed about human enhancement and related issues.
117. *Wired Magazine (Italian edition)*. 2009. Short commentary on my contribution to the *What’s Next* book edited by Max Brockman.
118. *Bayerischer Rundfunk (German radio)*. 2009. Interviewed about risk perception, risk thinking, everyday risks and existential risks.
119. *Time Magazine (American website)*. 2009. Interviewed about human enhancement and existential risks.
120. *ABC (Australian national radio)*. 2009. Interviewed about the singularity.
121. *The Sunday Age (Australian newspaper)*. 2009. Interviewed about pathologizing of human frailty and the quest for human perfection.
122. *BBC Focus Magazine. (UK)*. 2009. Interviewed about how people would react if they knew a natural catastrophe were about to destroy civilization, and how long it might take for civilization to recover.
123. *Oxford University Alumni Magazine. (UK)*. 2009. Interviewed about human enhancement ethics and other FHI work areas.
124. *Silicon.com. (business news website)*. 2009. Interviewed about the present and the future of artificial intelligence.
125. *Superinteressante. (Portuguese magazine.)* 2009. Interviewed about the meaning and implications of increasing longevity.
126. *Search Magazine*. 2009. Interviewed about observation selection effects and cosmological multiverse theories.

127. *Daytime (BBC Radio Oxford)*. 2009. Interviewed about lifestyle drugs and diet pills.
128. *The Today Program (UK Radio 4)*. 2009. Interviewed about lifestyle drugs and diet pills.
129. *History Channel (American television documentary)*. 2009. Interviewed about the idea of a technological singularity and about threats to human survival.
130. *O Estado de São Paulo (Brazilian newspaper)*. 2009. Interviewed about the past, present, and future of the Internet and its consequences for the human condition.
131. *Swedish Radio*. 2009. Interviewed about the simulation argument.
132. *The Independent (UK newspaper)*. 2009. Interviewed about enhancement in swimming sports.
133. *BBC (training video for internal personnel)*. 2009. Interviewed about transhumanism, human enhancement ethics, the future, and global catastrophic risks.
134. *TIME (American magazine)*. 2009. Interviewed about changing attitudes to childhood, aging, and death.
135. *Philosophie Magazine. (French)*. 2009. Interviewed about life extension and its potential social consequences.
136. *Wired UK*. 2009. Interviewed about malfunctioning consumer gadgets and perceptions about Murphy's law.
137. *MSN (American online news gateway)*. 2009. Interviewed about human evolution and other modes of change of the human condition.
138. *Weekendavisen (Danish weekly magazine)*. 2009. Interviewed about the future of human evolution.
139. *Mladina. (Slovenian magazine.)* 2009. Interviewed about existential risks, the simulation argument, human enhancement, and the future of human evolution.
140. *Zeit Wissen. (published by the German newspaper, Die Zeit)*. 2009. Interviewed about global catastrophic risks.
141. *BBC News (UK website)*. 2009. Asked to comment on research on the neurobiology of love.
142. *2009 Edge Question*. 2009. Contributed "Superintelligence.". Distributed by John Brockman, the answers for 2009 addressed the question, "What will change everything?" <http://edge.org/response-detail/863/what-will-change-everything>
143. *GQ (UK men's magazine)*. 2008. Interviewed about evolution, technology, and the possibility of some future posthuman condition.
144. *Zest (UK magazine)*. 2008. Interviewed about cognitive enhancement and associated ethical issues.
145. *Drive Time (BBC Radio Oxford, UK)*. 2008. Interviewed about the future of robotics.
146. *Bedeutung (UK philosophy magazine)*. 2008. Interviewed about transhumanism.
147. *David Fanning Show (RTE Irish Radio)*. 2008. Discussion of present state of and potential future developments in artificial intelligence research.
148. *Time (American magazine)*. 2008. Interviewed about existential risks and other FHI research areas.
149. *lrytas.lt (Lithuanian internet newspaper)*. 2008. Interviewed about transhumanism.

150. *Wired UK*. 2008. Interviewed about future technological developments.
151. *Sole24ore (Italian newspaper)*. 2008. Interviewed about transhumanism and the study of the future of humanity and about human enhancement.
152. *Seed/Science Is Culture (American/Canadian magazine)*. 2008. Interviewed as one among a set of “visionaries” about anticipated scientific developments over the next year.
153. *BBC Radio. (UK)*. 2008. Interviewed about my work on various big picture questions for humanity and about transhumanism.
154. *Kultur Zeit (television program broadcast in Germany, Austria, and Switzerland)*. 2008. Interviewed and filmed for program focusing on the FHI and my work on global catastrophic risks.
155. *BBC Radio Oxford (UK)*. 2008. Interviewed about an advance in cloning technology and its potential use to bring back extinct species.
156. *Gafencu Magazine (men’s magazine, Hong Kong, Beijing and Shanghai)*. 2008. Interviewed about cyberspace, virtual reality, and becoming digital.
157. *MSNBC.com. (American website)*. 2008. Interviewed about global catastrophic risks.
158. *Sky Channel 200 (Edge Media television news)*. 2008. Interviewed in a program devoted to my simulation argument.
159. *Independent television documentary project*. 2008. Background interview for proposed television series on global catastrophic risks.
160. *London student documentary*. 2008. Interviewed about cognitive enhancement.
161. *Danish TV documentary*. 2008. Interviewed about transhumanism, existential risks, and human enhancement.
162. *The Independent (UK newspaper)*. 2008. Interviewed for a section on visionaries.
163. *Epoca (premier Brazilian news weekly)*. 2008. Interviewed about global catastrophic risks, existential risks, the great filter, the singularity, transhumanism, and human enhancement ethics.
164. *Utne Reader. (American bimonthly magazine)*. 2008. Interviewed about my work and the Future of Humanity Institute upon being named one of the “50 visionaries who are changing the world” featured in the 150-year anniversary issue of the magazine.
165. *The Future and You (podcast)*. 2008. Interviewed about transhumanism, existential risks, the simulation argument, and the singularity.
166. *Bon Magazine. (Swedish magazine)*. 2008. Interviewed about the science and ethics of life extension.
167. *The Scotsman (UK newspaper)*. 2008. Interviewed about global catastrophic risks.
168. *Computer Shopper*. 2008. Interviewed about human enhancement and existential risks.
169. *Men’s Journal. (American magazine.)* 2008. Interviewed in relation to some of my papers on cognitive enhancers.
170. *New Scientist Magazine*. 2008. Interviewed about the conference on global catastrophic risks organized by the FHI.

171. *BBC Radio Oxford*. 2008. Interviewed about the conference on global catastrophic risks organized by the FHI.
172. *FoxFM (Oxfordshire, UK radio station)*. 2008. Interviewed about the conference on global catastrophic risks organized by the FHI in Oxford.
173. *Apocalypse How (Discovery Channel documentary, Canadian)*. 2008. Interviewed about my views on existential risks facing humanity.
174. *The Moral Maze (BBC Radio 4, UK)*. 2008. Participating as expert witness on the issue of performance enhancing drugs in sport and of human enhancement ethics more generally.
175. *Discovery Channel (Canadian television)*. 2008. Interviewed about the future of machine intelligence, and about the existential risks associated with superintelligence.
176. *Venerdì di Repubblica. (weekly Italian newspaper)*. 2008. Interviewed about the singularity hypothesis and the future of artificial intelligence.
177. *New Scientist Magazine*. 2008. Interviewed about current issues in bioethics.
178. *CNN.com. (American news agency website)*. 2008. Interviewed about human enhancement ethics, the singularity, and existential risks.
179. *US News & World Report. (American magazine)*. 2008. Interviewed about human evolution, gene therapy, and human enhancement.
180. *Kerrang Radio. (UK)*. 2008. Interviewed about population growth and population ethics.
181. *The Forum (BBC Radio, UK)*. 2008. Discussion program; talking about my Technology Review paper on the search for extraterrestrial life, and on the case for funding research into cognitive enhancing drugs.
182. *Cosmos (popular Australian science magazine)*. 2008. Interviewed for about threats to civilization.
<http://www.cosmosmagazine.com/node/2438/full>
183. *Earth and Sky (syndicated radio show)*. 2008. Interviewed about the science of global catastrophic risks, and about transhumanism.
184. *BBC Focus Magazine. (UK)*. 2008. Interview about human evolution and its possible future directions.
185. *Science Fantastic (nationally syndicated American radio show)*. 2008. Interviewed about transhumanism, human enhancement, and life extension.
186. *Les Echos (French monthly newsmagazine)*. 2008. Featured in-depth interview about transhumanism, human enhancement, genetic selection, and the evolution heuristic.
187. *WBUR (American radio station, Boston)*. 2008. Interviewed about my article in MIT Technology Review on the Fermi paradox and the Great Filter argument.
188. *BBC Online. (UK news)*. 2008. Interviewed about how humans have extended life span in the past, and about the future prospects of medical science in creating further extensions of the healthy human life span.
189. *Bloomberg News. (American news agency)*. 2008. Commenting on the significance of a new study showing potential health dangers from exposure to carbon nanotubes.
190. *Engineering and Technology Magazine (Institution of Engineering and Technology (IET), UK)*. 2008. Interviewed about aging, transhumanism, and cognitive enhancement.

191. *The Independent (UK newspaper)*. 2008. Interviewed about cognitive enhancement research and the regulatory framework for pharmaceutical products.
192. *Seed/Science Is Culture (American/Canadian magazine)*. 2008. Interviewed about cognitive enhancement.
193. *Gafencu Magazine (men's magazine, Hong Kong, Beijing and Shanghai)*. 2008. Interviewed about human enhancement and about how new technological practises might change our self-conception at human beings.
194. *Discover (science magazine)*. 2008. Interviewed about cognition enhancing drugs, their role within the medical system, and the transhumanist perspective
195. *Upcoming book about life-extension*. 2008. Interviewed about the ethics of life extension, and about the future of artificial intelligence, and about various related ethical issues
196. *Über-Menschlichkeiten (German book, eds. Jan-Christoph Heilinger / Markus Christen)*. 2008. Interviewed about the ethics and social consequences of life extension.
197. *The Observer (UK newspaper)*. 2008. Interviewed about cognition enhancing drugs, their current use and future impact, and associated normative questions.
198. *Agence-France Presse. (French news agency, the oldest one in the world, and one of the three largest with Associated Press and Reuters)*. 2008. Interviewed about ethical issues in the prospect of intimate relations between humans and robots.
199. *Short independent video documentary*. 2008. Interviewed about the larger significance of the Large Hadron Collider and the quest for the basic laws of physics.
200. *Podium (featured segment in the journal Nature's podcast)*. 2008. Presenting my essay "Three Ways to Advance Science"
201. *Quo (Mexican magazine)*. 2008. Interviewed about global catastrophic risks and population growth projections.
202. *The Daily Star (UK newspaper)*. 2008. Interviewed about the future of artificial intelligence.
203. *The Guardian (UK newspaper)*. 2008. Interviewed about ethical issues in robotics and artificial intelligence.
204. *Associated Press (global news agency)*. 2008. Interviewed about the exclusion of Oscar Pistorius from the Olympics, and about the wider social significance of performance enhancement.
205. *2008 Edge Question*. 2008. Contributed "Everything". Distributed by John Brockman, the answers for 2008 addressed the question, "What have you changed your mind about?" <http://edge.org/response-detail/2288/what-have-you-changed-your-mind-about-why>
206. *Cronopis (Spanish literary magazine)*. 2007. Interviewed about transhumanist philosophy and my views on various future-related issues, as well as the origins of the WTA.
207. *Washington Post. (American newspaper)*. 2007. Interviewed about the potential consequences of pharmaceutical methods of reducing fear.
208. *Newton magazine (Italian science magazine)*. 2007. Interviewed about transhumanism and the future.
209. *Mladina (Slovenian weekly magazine)*. 2007. Interviewed about the simulation argument.
210. *BBC Radio 4. (UK)*. 2007. Interviewed about BMA report on cognitive enhancement.

211. *BBC World Service (UK radio)*. 2007. Interviewed about cognitive enhancement techniques and related ethical and regulatory issues.
212. *Red Group Audio Business Program*. 2007. Interviewed about technological developments and future possibilities as relates to the concerns of business managers.
213. *Television documentary (Swedish National Television, for international distribution)*. 2007. Interviewed about the future of human evolution, human enhancement, and existential risks.
214. *Independent film documentary*. 2007. Interviewed about the singularity hypothesis and about the simulation argument.
215. *Popular Science (magazine)*. 2007. Interviewed about the simulation argument.
216. *The Today Programme (UK Radio 4)*. 2007. Interviewed about the future of computing and implications for society.
217. *The SciPhi Show (webcast radio)*. 2007. Interviewed about transhumanist philosophy and global catastrophic risks, and about my academic work more generally.
218. *ZNET (web radio)*. 2007. Interviewed about the simulation argument.
219. *KLPZ Radio (American)*. 2007. Interviewed about the simulation argument mainly, but also about transhumanism, global catastrophic risk, the singularity, nanotechnology, and uploadin.
220. *SETI Radio*. 2007. Interviewed about the simulation argument.
221. *BBC News (UK website)*. 2007. Interviewed about the ethics of connecting to the internet via somebody else's wireless account.
222. *Clarín (Argentina's largest newspaper)*. 2007. Interviewed about my various research interests, including the implications of future technologies, human enhancement, and global catastrophic risks.
223. *NewsTalk Radio (Ireland)*. 2007. Interviewed for segment about my simulation argument.
224. *Bryant Park (American national public radio)*. 2007. Interviewed about the simulation argument.
225. *The Believer*. 2007. Interviewed about my biography and intellectual background.
226. *New York Times. (American newspaper)*. 2007. Interviewed for article about my simulation argument.
227. *Washington Post. (American newspaper)*. 2007. Interviewed about performance enhancement in sport.
228. *TV documentary*. 2007. Interviewed about life extension and biogerontology.
229. *The Sunday Times. (UK newspaper)*. 2007. Interviewed about cognitive enhancing drugs, particularly Modafinil, and its use by some academics.
230. *Ci'num (Digital Civilizations Forum)*. 2007. Interviewed about existential risks, human enhancement, public engagement with emerging technologies, and utopian visions.
231. *BBC Radio 2. (UK)*. 2007. Interviewed about the future of the Internet and it impacts, for the series *Why Didn't I Think of That?*
232. *GQ (UK men's magazine)*. 2007. Long feature article on me and my work and the FHI.
233. *Times Higher Educational Supplement. (American newspaper)*. 2007. Interviewed about cognitive enhancement medicine, including practical and ethical issues, and implications for policy.

234. *Le Devoir*. (French-language newspaper published in Montreal, Canada). 2007. Interviewed about Gunther von Hagens' *Body Worlds* exhibition.
235. *BBC Television*. (UK). 2007. Interviewed for two documentaries about biotechnology and nanotechnology, about expected developments in these fields and what they might mean for the future of humanity.
236. *Seed/Science Is Culture* (American/Canadian magazine). 2007. Interviewed about robot ethics.
237. *Toronto and Ottawa Suns* (Canadian newspapers). 2007. Asked about the future of surveillance technology.
238. *The Independent* (UK newspaper). 2007. Interviewed about efforts by industry to develop ethics codes for robots.
239. *L'Hebdo* (Swiss newsmagazine). 2007. Interviewed about cyborg technologies such as implants versus other ways of enhancing human performance.
240. *Associated Press*. (global news agency). 2007. Interviewed about transhumanism, future technologies, and Fukuyama's critique.
241. *Financial Times*. 2007. Interviewed about "where philosophy is going today".
242. *BBC World Service* (UK radio). 2007. Commenting on three topics: the "doomsday vault" (seed bank) in Svalbard, Microsoft's "immortal computing" project, and plans to send out messages aimed for extraterrestrial civilizations.
243. *PC Plus magazine*. 2007. Interviewed about pervasive computing.
244. *Chemistry World* (magazine). 2007. Interviewed about the ethics of life extension research in conjunction with a forthcoming paper in the journal *Rejuvenation Research*.
245. *Utildnings Radion* (Swedish educational radio). 2007. Interviewed about the future of human evolution, the impacts of transformative technologies, and transhumanist ethics.
246. *Closer to Truth* (American public television / PBS series). 2007. Four-hour interview covering topics for many aspects of my work, with material to be included in at least five programs: the simulation argument, anthropic reasoning, the future of intelligent life, multiverse theories, the Doomsday argument, etc.
247. *Drivetime with Dave Fanning on RTE Radio One* (Irish radio). 2007. Interviewed about human enhancement and nanotechnology.
248. *Urbania* (Montreal-based magazine). 2007. Short interview about what the priorities should be on the environmental agenda.
249. *The Boston Globe*. (American newspaper). 2007. Interviewed about existential risks, and about the invocation of the term "existential threat" in relation the war on terror.
250. *San Diego Union-Tribune*. (American newspaper). 2007. Interviewed about human evolution and its possible future directions.
251. *The Sunday Herald* (Scottish newspaper). 2007. Interviewed about life-extension and transhumanism.
252. *Drivetime With Dave Fanning on RTE Radio One* (Irish radio). 2007. Interviewed about the simulation argument.

253. *Odd at Large (Swedish Magazine)*. 2007. Interviewed about the activities of the Oxford Future of Humanity Institute, global catastrophic risks, and the simulation argument.
254. *BBC Focus Magazine (UK)*. 2007. Interviewed about the simulation argument.
255. *Fast Thinking (Australian magazine)*. 2007. Interviewed about DNA technology and about the possibility of eradicating aging and disease.
256. *The Today Programme (BBC Radio 4, UK)*. 2007. Interviewed about the role of instincts and moral intuitions in bioethics and discussions about human enhancement.
257. *The Meaning of the 21st Century (American public television)*. 2006. Interviewed by James Martin on transhumanism, human extinction scenarios, and future technologies.
258. *McCalmont's Web Forum*. 2006. Interviewed about my background and miscellaneous topics.
259. *The Today Programme (BBC Radio 4, UK)*. 2006. Interviewed about gene doping and performance enhancement in sport.
260. *Discovery Channel (Canadian television)*. 2006. Interviewed about cyborg technology, uploading, and the future of humanity.
261. *PIMM (book blog)*. 2006. Interviewed about life extension.
262. *BBC Focus Magazine (UK)*. 2006. Interviewed about cosmological problems and the simulation argument.
263. *Personal Computer World*. 2006. Interviewed about transformative future technologies.
264. *Mongrel Magazine (Irish)*. 2006. Interviewed about transhumanism.
265. *Cryonics Magazine (American magazine published by ALCOR)*. 2006. Interviewed about ethical issues related to the practise of cryonic suspension.
266. *BBC Radio 3 (UK)*. 2006. Hour-long debate about the future of human enhancement and robotics, part of the BBC Festival of Ideas in Liverpool.
267. *The Times (UK newspaper)*. 2006. Interviewed about human enhancement and associated ethical issues.
268. *Independent documentary film*. 2006. Interviewed about future energy sources.
269. *Nature (science magazine)*. 2006. Interviewed about the conference TransVision 2006 and my presentations therein.
270. *Italian National Television*. 2006. Interviewed about the future and about philosophical questions related to artificial intelligence and human enhancement.
271. *New Scientist Magazine*. 2006. Interviewed about my work on the evolution heuristic.
272. *BBC Radio Five (UK)*. 2006. Interviewed about performance enhancement in sport.
273. *Monthly Vision (Italian magazine)*. 2006. Interviewed about artificial intelligence and where it will go in the future.
274. *Maxim (UK men's magazine)*. 2006. Interviewed about future technologies and body modification.
275. *CNN Future Summit (American news agency)*. 2006. Interviewed about the present state of artificial intelligence and its future prospects

276. *National Journal*. (*American weekly magazine*). 2006. Interviewed about the future of intelligent machines, the possibility of a technological singularity, and the implications for governance and public policy.
277. *The Times* (*UK newspaper*). 2006. Interviewed about life-extension research and the desirability of longer life.
278. *The Times* (*UK newspaper*). 2006. Interviewed about memory and how new technology may change the demands on human memory.
279. *Wellcome Trust science museum*. 2006. Background interview about cognitive enhancers.
280. *Technocalypse* (*film documentary*). 2006. Interviewed about status quo bias, human rationality, and human enhancement.
281. *The Sunday Times*. (*UK newspaper*). 2006. Interviewed about the impacts of growing up with digital technology on brain development and psychology.
282. *Human Values in a Transhuman World* (*radio documentary*). 2006. Interviewed about ethics, human enhancement, and new technologies.
283. *Meme Therapy* (*blog*). 2006. Interviewed about transhumanism and related issues.
284. *The Next Paradigm* (*television documentary*). 2006. Interviewed about the singularity and the future of artificial intelligence.
285. *TV documentary*. 2006. Interviewed about transhumanism and related issues.
286. *French Feature Film*. 2006. Interviewed about aging and life-extension.
287. *Autopilots* (*television documentary*). 2006. Interviewed about the future of robotics and artificial intelligence.
288. *Bon Magazine* (*Swedish*). 2006. Interviewed about memory enhancing and memory deleting drugs and their social and ethical ramifications.
289. *Isis Magazine*. (*Oxford student publication*). 2006. Interviewed about what kinds of technological change students alive today can expect to experience in their lifetime.
290. *Eureka* (*French magazine*). 2006. Interviewed about human nature.
291. *Muy interesante* (*popular science magazine for Central America*). 2006. Main feature (15-20 pages) on my work on existential risks.
292. *The Observer* (*UK newspaper*). 2006. Interviewed about my RSA lecture and the prospects of human enhancement technologies.
293. *Galileu* (*Brazilian science magazine*). 2006. Interviewed about the science of life extension.
294. *The Guardian* (*UK newspaper*). 2006. Feature interview about the work of the Oxford Future of Humanity Institute, and about transhumanism.
295. *CNN Future Summit*. (*American news agency*). 2006. Interviewed about a variety of future-related topics.
296. *The Meaning of the 21st Century* (*television documentary*). 2006. Reading my "Letter from Utopia"
297. *Philosophy Now*. 2006. Interviewed about David Pearce's work.

298. *CBC (Canadian Broadcasting Corporation television)*. 2006. Interviewed about the future of aging.
299. *Science & Avenir (French science magazine)*. 2006. Interviewed about the Future of Humanity Institute and transhumanism.
300. *London Update*. 2006. Interviewed about transhumanism.
301. *ABC News (American documentary)*. 2006. Interviewed about global catastrophic risks and threats to human survival.
302. *The Future (Dutch National Television)*. 2006. Followed for one day and interviewed about my work and about transhumanism.
303. *BBC World Service. (UK radio)*. 2006. Interviewed about aging and life-extension.
304. *The Today Program (Channel 4, UK Radio)*. 2006. Interviewed about human enhancement.
305. *Good Morning Scotland (BBC Radio, UK)*. 2006. Interviewed about life-extension.
306. *Radio Oxford. (UK)*. 2006. Interviewed about the ethics and science of life-extension.
307. *Catastrophe (UK magazine)*. 2006. Interviewed about the Future of Humanity Institute and its interdisciplinary work.
308. *Volkskrant (Dutch newspaper)*. 2006. Interviewed at length about my work, and about human enhancement technologies.
309. *Discover (science magazine)*. 2006. Interviewed in relation to *Nature* publication on the cosmic disaster frequency.
310. *The Sunday Times. (UK newspaper)*. 2005. Interviewed about the ENHANCE project.
311. *Die Welt. (German newspaper)*. 2005. Interviewed in relation to *Nature* publication on the cosmic disaster frequency.
312. *USA Today. (American newspaper)*. 2005. Interviewed in relation to *Nature* publication on the cosmic disaster frequency.
313. *New Scientist Magazine*. 2005. Interviewed in relation to *Nature* publication on the cosmic disaster frequency.
314. *Philosopher's Magazine*. 2005. Asked about the Future of Humanity Institute.
315. *Gestión*. 2005. Profiled in an article on thinkers "whose ideas are having or will have a large impact in the business landscape"
316. *Science and Spirit*. 2005. Interviewed about the anthropic principle and cosmology
317. *Science and Theology News*. 2005. Interviewed about the anthropic principle and Leon Susskind
318. *La Revue mensuelle*. 2005. Interviewed about myself and about transhumanism.
319. *TV Documentary*. 2005. Interviewed about artificial intelligence and its future prospects.
320. *Chemical & Engineering News*. 2005. Interviewed about the simulation argument.
321. *NanoAging*. 2005. Interviewed about life-extension and related matters.

322. *The Boston Globe*. (American newspaper). 2005. Interviewed about the future of artificial intelligence.
323. *Gehirn & Geist*. (German edition of *Scientific American Mind*). 2005. Interviewed about cognitive enhancers.
324. *National Journal*. 2005. Interviewed about global catastrophic risk.
325. *Discovery Channel* (Canadian television). 2005. Interviewed about the simulation argument and about whether there is extraterrestrial life.
326. *Independent film company*. 2005. Interviewed for trailer, on the possibilities of the 21st century.
327. *Men's Health* (Russian). 2005. Interviewed about future possibilities.
328. *Independent filmmaker*. 2005. Interviewed for documentary on transhumanism.
329. *Conference video for Transvision05*. 2005. Interviewed about transhumanism and bioethics.
330. *Tecnohumano fundacion video*. 2005. Interviewed about transhumanism and the developing world.
331. *Conference video for Transvision05*. 2005. Interviewed about transhumanism in general.
332. *Radio lab WNYC*. (American radio). 2005. Interviewed about transhumanist philosophy.
333. *The Guardian*. (UK newspaper). 2005. Interviewed about future prospects for humanity.
334. *Channel 4*. 2005. Consulted for planned documentary on future humans.
335. *Hartford Courant*. (American newspaper). 2005. Interviewed about transhumanism.
336. *Mail of Sunday*. 2005. Interviewed about artificial intelligence and the CYC project.
337. *Spanish Transhumanist Gazzett*. 2005. Interviewed about transhumanism.
338. *BBC News* (UK television). 2005. Interviewed about cosmetic neurology.
339. *Swedish Radio*. 2005. Interviewed about the simulation argument.
340. *The Daily Telegraph*. (UK newspaper). 2005. Interviewed about the launch of the Oxford Centre for the Science of the Mind.
341. *Press Conference*. 2005. Interviewed for UK newspapers in London, about the launch of the Oxford Centre for the Science of the Mind.
342. *Discover* (science magazine). 2005. Interviewed about observation selection effects and traffic analysis.
343. *Philosophy: The State of the Art* (popular book on living philosopher). 2005. Interviewed about my work for, by the author, Nicholas Fern.
344. *What We Still Don't Know* (American television documentary, Channel 4 and PBS). 2005. Interviewed about the simulation arguments and artificial intelligence.
345. *Discover* (science magazine). 2005. Interviewed about traffic analysis and observation selection theory.
346. *Revue Vivant*. 2004. Interviewed about transhumanism.
347. *Atlantic Books*. 2004. Interviewed by Nicholas Fearn for "Philosophy: The State of the Art".

348. *Der Spiegel*. (English language int'l edition of German news source). 2004. Interviewed about the simulation argument.
349. *The Sunday Times*. (UK newspaper). 2004. Interviewed about the simulation argument.
350. *This Magazine* (Canadian). 2004. Interviewed about transhumanism.
351. *The Oxford Student*. (newspaper). 2005. Interviewed about neuropharmacology and the ethics of cognitive enhancers.
352. *The Financial Times Magazine*. 2004. Interviewed about transhumanism.
353. *The Times* (UK newspaper). 2004. Interviewed about cognitive enhancements and cosmetic neurology.
354. *Equal Time for Freethought* (American radio station). 2004. Interviewed about the future of the human condition.
355. *CBC* (Canadian TV documentary). 2004. Interviewed about transhumanism and the Transvision04 conference.
356. *Le Devoir* (Canadian newspaper). 2004. Interviewed about transhumanism.
357. *Now* (UK celebrity magazine). 2004. Interviewed about transhumanism.
358. *Legal Affairs Magazine*. 2004. Interviewed about ethical and legal rights for machines.
359. *GQ* (UK men's magazine). 2004. Interviewed about future human modification technologies.
360. *The New York Times* (American weekly Magazine). 2004. Interviewed about global catastrophic risk.
361. *The Matrix: Philosophy* (DVD documentary). 2004. Interviewed about transhumanism, ethics, and future technologies.
362. *Belgian National Television*. 2004. Guest on discussion program about human enhancement.
363. *HUMO* (Belgian magazine). 2004. Interviewed about the ethics of human enhancement technologies
364. *Nanotechnology Now* (magazine). 2004. Interviewed about strategic security issues in nanotechnology, and about transhumanism.
365. *LA Times* (American newspaper, Los Angeles). 2004. Interviewed about the alertness-enhancing drug Modafinil.
366. *Morning Call* (American newspaper, Allentown, PA). 2004. Interviewed about long-term threats to human survival.
367. *Times Weekend Review* (UK newspaper). 2004. Philosophy trivia.
368. *Sunday Times* (UK newspaper). 2004. Interviewed about cryonics.
369. *Vancouver Courier* (Canadian newspaper). 2003. Interviewed about Christmas.
370. *SVT* (Swedish national television). 2003. Interviewed about the future and the simulation argument.
371. *BBC Horizon* (flagship science programme on BBC Two, UK). 2003. Interviewed about my simulation argument.
372. *Yale Medicine Magazine*. (American). 2003. Interviewed about enhancement medicine.

373. *United Press International*. 2003. Interviewed about Mr. Schwarzenegger's candidacy and the ethics of human enhancement technologies.
374. *Seed/Science Is Culture (American/Canadian magazine)*. 2003. Interviewed about my role in the transhumanism movement.
375. *La Voz Asturias* (Spanish newspaper) 2003. Interviewed about the simulation argument.
376. *BBC Radio. (UK)*. 2003. Interviewed about the simulation argument.
377. *BBC Radio. (UK)*. 2003. Interviewed about transhumanism.
378. *PBS TV Documentary. (American public broadcasting)*. 2003. Interviewed by Dina Guttman for forthcoming documentary on transhumanism.
379. *Joel Garreau*. 2003. Interviewed about myself and transhumanism for his forthcoming book.
380. *Los Angeles Times. (American newspaper)*. 2003. Interviewed about technology, ethics, biopolitics, and transhumanism.
381. *Documentary (University of Westminster, London)*. 2003. Interviewed about the ethics of human genetic engineering.
382. *Radio Chicago WKQX. (American)*. 2003. Interviewed about the film, "The Matrix".
383. *Eesti Ekspress (Estonian weekly magazine)*. 2003. Interviewed about the simulation argument.
384. *Folkradion (Swedish national radio)*. 2003. Interviewed about the simulation argument.
385. *Zara, Troy, and Bernie in the morning (Radio, Western Australia)*. 2003. Interviewed about the simulation argument
386. *P1 (Swedish national radio)*. 2003. Interviewed about the simulation argument.
387. *Radio Perth. (Australian)*. 2003. Interviewed about the simulation argument.
388. *Radio Atlanta. (American)*. 2003. Interviewed about the simulation argument.
389. *SAFM Radio (South Africa)*. 2003. Interviewed about the simulation argument.
390. *CHQR Radio (Alberta, Canada)*. 2003. Interviewed about the simulation argument.
391. *CFRB Radio, The John Oakley Show (Canada)*. 2003. Interviewed about the simulation argument.
392. *Red FM (Cork, UK)*. 2003. Interviewed about the simulation argument and the future.
393. *Radio WLLW The WALL 99.3. (American radio.)* 2003. Interviewed about the simulation argument.
394. *Radio Dublin*. 2003. Special Guest, interviewed about "The Matrix" and the simulation argument.
395. *Wireless Flash News Service (American)*. 2003. Interviewed about the simulation argument.
396. *Super Interessante (Brazilian science and technology magazine)*. 2003. Interviewed about the simulation argument.
397. *BBC Radio Four. (UK)*. 2003. Interviewed about observation selection effects in traffic analysis.
398. *The Daily Mail (UK newspaper)*. 2003. Interviewed about the simulation argument.

399. *The New Yorker*. (American weekly magazine). 2003. Interviewed about philosophical issues in multiverse cosmology.
400. *The Big Issue* (UK charity magazine). 2003. Interviewed about the transhumanist movement.
401. *Empire* (movie magazine). 2003. Interviewed about the simulation argument and “The Matrix” film.
402. *Sesame* (Open University newsletter). 2003. Featured about a lecture on observation selection effects.
403. *WHPK Radio, University of Chicago* (American). 2003. Interviewed about human cloning.
404. *Washington Post*. (American newspaper). 2002. Interviewed by Linton Weeks on the past and future development of life.
405. *Fox News* (American television). 2002. Interviewed live on stem cells research and human cloning.
406. *Southern News Chain* (Canadian newspaper network). 2002. Interviewed about reproductive cloning and the future of genetics.
407. *News Talk Dublin* (Irish Radio). 2002. Interviewed about human cloning.
408. *Maariv* (Israeli daily newspaper). 2002. Interviewed about the simulation argument.
409. *The Salon* (UK magazine). 2002. Interviewed about existential risks and threats to human survival.
410. *Hartford Courant* (American newspaper). 2002. Interviewed about the simulation argument.
411. *Orlando Sentinel* (American newspaper). 2002. Interviewed about the simulation argument.
412. *Red FM* (Irish radio station). 2002. Interviewed about transhumanism.
413. *World Weekly News* (American tabloid). 2002. Article on the simulation argument.
414. *The Great Unknown* (American radio show). 2002. Interviewed as two-hour special guest, about my views on the future of humankind.
415. *To the Best of Our Knowledge* (syndicated American radio show). 2002. Interviewed about the simulation argument.
416. *New Scientist Magazine*. 2002. Feature article about my simulation argument.
417. *The Daily Telegraph* (UK newspaper). 2002. Interviewed about the simulation argument.
418. *Jeff Rense* (American coast-to-coast radio). 2002. Interviewed on two-hour show about transhumanism.
419. *Todd Mundt Show* (American radio). 2002. Interviewed about the simulation argument and the film “The Matrix.”
420. *Art Bell* (radio show). 2002. Interviewed as three-hour special guest about transhumanism and the future.
421. *Sensoria* (online magazine). 2002. Interviewed about transhumanism.
422. *BBC Radio Asia*. 2002. Interviewed about the simulation argument.
423. *KIJK* (Dutch magazine). 2002. Interviewed about the simulation argument for a youth readership.
424. *CBS Radio*. (American). 2002. Interviewed about the simulation argument.

425. *BBC Radio*. (UK). 2002. Interviewed about the idea that we might be living in a computer simulation.
426. *Metro London (UK newspaper)*. 2002. Interviewed about my paper on the simulation argument.
427. *BBC Three Counties Radio*. (UK). 2002. Interviewed about my simulation argument.
428. *Waterbury Republican-American*. 2002. Interviewed about cryonics.
429. *The New Yorker*. (weekly American magazine). 2002. Interviewed about traffic analysis and observation selection effects.
430. *Life Positive Plus (Indian Magazine)*. 2002. Interview about technology, evolution, and the future of humanity.
431. *Washington Post*. (American newspaper). 2002. Interviewed by Rick Weiss on issues relating to human cloning.
432. *TV2 RTM (Malaysian national television)*. 2002. Interviewed about reproductive vs. therapeutic cloning.
433. *Changesurfer Radio*. 2002. Interviewed about my book *Anthropic Bias*, and about the World Transhumanist Association.
434. *Nanotechnology Now*. 2001. Interviewed about nanotechnology and technological progress.
435. *Real Life (American television program on TV8)*. 2001. Debated and fielded callers' questions about therapeutic cloning and stem cells research.
436. *The New Journal*. 2001. Interviewed about my efforts to introduce a course on the future of humanity into the curriculum.
437. *Nanomagazine.com*. 2001. Interviewed about artificial intelligence.
438. *WebMD Medical News*. 2001. Interviewed about artificial intelligence.
439. *Scholastic Scopes Magazine*. 2001. Interviewed on cloning.
440. *RNN-TV (American television news network)*. 2001. Interviewed live about cloning.
441. *BBC Radio Wales*. 2001. Interviewed about human cloning.
442. *610-WTVN*. (American talk radio network). 2001. Interviewed about human cloning and genetic engineering.
443. *BBC World Service (UK radio)*. 2001. Discussion on cosmological fine-tuning and the anthropic principle.
444. *Discovery Channel (Canadian television)*. 2001. Interviewed about the future of humanity.
445. *Tech (web TV)*. 2001. Interviewed about artificial intelligence and uploading.
446. *Ne(x)t Text (press agency)*. 2001. Interviewed about transhumanism.
447. *Vision (Swedish magazine)*. 2001. Interviewed about transhumanism.
448. *Rank (London-based fashion magazine)*. 2001. Portrayed and interviewed.
449. *WRRN (American cable-television news network)*. 2001. Interviewed on the ethics of human cloning.

450. *Aftershock (Australian national television)*. 2001. Interviewed about transhumanism and my views on the nanotechnology, the ethics and science of life-extension, mood drugs, and future of artificial intelligence.
451. *Heart of the Matter (BBC television, UK)*. 2000. Interviewed about ethical and scientific issues related to life-extension research and a possible cure for aging. Writing and presenting the first half of the program, and partaking in a studio debate in the second half.
452. *Changesurfer Radio*. 2000. Half-hour interview by Dr. J. Hughes about my philosophical research.
453. *LSE News and Views*. 2000, Vol. 22, No. 3, p. 1. Special feature on my work on observation selection effects, and on being awarded the John Templeton Foundation grant.
454. *Work Predictions (BBC television, UK)*. 2000. Interviewed about virtual reality and teleworking.
455. *BBC Radio*. 2000. Interviewed by Jeremy Grange about technical, philosophical and social aspects of mind uploading.
456. *Resonance Publications*. April, 2000. Feature-length interview on analytic philosophy, transhumanism, education, and government. Republished by *Pantaneto Forum* (online magazine) in 2002.
457. *The World Wide Web Radio Show* (U.S. talk radio network, Redband Broadcasting). 2000. Interviewed about transhumanism and the impact of future technologies.
458. *London Radio & Associated Press Television News*. 2000. Interviewed about transhumanism and life-extension.
459. *LSE News and Views*. 2000, Vol. 21, No. 10, p. 1. Featured on my views on the philosophy of technology, particularly regarding life-extension.
460. *Rage Against the Machines (documentary)*. 2000. Interviewed by Karen Powell.
461. *The Analytics*. 1999. Hosted an intellectual talk show on PULSE radio.
462. *The Today Show (BBC radio)*. 1999. Interviewed by Mike Thomson about the impact of future technologies, especially artificial intelligence.
463. *Sunday Times (UK national newspaper)*. 1999. Interviewed by Martin Wroe about the consequences of artificial intelligence and molecular nanotechnology.
464. *Web Heads*. 1999. Featured in episodic television series. Producer: Wally & Murk Corp.
465. *Haaretz (Israeli national newspaper)*. 1999. Interviewed about transhumanism.
466. *New Scientist Magazine*. 6 June 1998: No 2137, pp. 26-30. Interviewed about physicist Max Tegmark's "Theory of Everything".
467. *Radio Debate, London*. 21 October 1998. Interviewed about public policy on smoking.
468. *The Alberta Report (Canadian newspaper)*. 27 April 1998. Interviewed about transhumanism.
469. *Channel 5 (UK national television)*. 1997. Performed stand-up comedy.
470. *Helsingborgs Dagblad (Swedish newspaper)*. 1992. Interviewed about my art exhibition.
471. *Sydsvenska Dagbladet (Swedish newspaper)*. 1992. Interviewed about my art.
