[My work has been covered extensively in the media. I have done more than 300 interviews for television news and documentaries, radio, newspapers, and magazines, including BBC, CNN, NBC, ABC News, PBS, CBC, Discovery Channel, Financial Times, New York Times, Washington Times, The New Yorker, Der Spiegel, The Independent, the Telegraph, The Sunday Times, The Guardian, The Observer, Times Higher Educational Supplement, Le Devoir, Toronto and Ottawa Suns, L'Hebdo, Utildnings Radion, Boston Globe, San Diego Union-Tribune, The Sunday Herald, Nature, New Scientist, Science & Avenir, Volkskrant, Discover Magazine, Forbes, and many others.]

1. *Superinteressante*. 2009. Interviewed about the meaning and implications of increasing longevity.
2. *Search Magazine*. 2009. Interviewed about observation selection effects and cosmological multiverse theories.
3. *Daytime* (BBC Radio Oxford). Interviewed about lifestyle drugs and diet pills.
4. *The Today Program* (UK Radio 4). Interviewed about lifestyle drugs and diet pills.
5. *History Channel* (TV documentary). 2009. Interviewed about the idea of a technological singularity and about threats to human survival.
6. *O Estado de São Paulo* (Brazilian newspaper). 2009. Interviewed about the past, present, and future of the Internet and its consequences for the human condition.
7. *Swedish Radio*. 2009. Interviewed about the simulation argument.
8. *The Independent* (UK newspaper). 2009. Interviewed about enhancement in swimming sports.
9. *BBC* (internal training video). 2009. Interviewed about transhumanism, human enhancement ethics, the future, and global catastrophic risks.
10. *TIME magazine*. 2009. Interviewed about changing attitudes to childhood, aging, and death.
11. *Philosophie Magazine*. 2009. Interviewed about life extension and its potential social consequences.
12. *Wired*. 2009. Interviewed about malfunctioning consumer gadgets and perceptions about Murphy's law.
13. *MSN* (online gateway). 2009. Interviewed about human evolution and other modes of change of the human condition.
14. *Weekenavisen* (Danish weekly). 2009. Interviewed about the future of human evolution.

15. *Mladina*. 2009. Interviewed about existential risks, the simulation argument, human enhancement, and the future of human evolution.
16. *Zeit Wissen*. 2009. Interviewed about global catastrophic risks.
17. *BBC News Website*. 2009. Asked to comment on research on the neurobiology of love.
18. *GQ Magazine*. 2008. Interviewed about evolution, technology, and the possibility of some future posthuman condition.
19. *Zest Magazine*. 2008. Interviewed about cognitive enhancement and associated ethical issues.
20. *Drive Time* (BBC Radio Oxford). 2008. Interviewed about the future of robotics.
21. *Bedeutung* (philosophy magazine). 2008. Interviewed about transhumanism.
22. *David Fanning Show* (RTE Radio). 2008. Discussion present state and potential future developments in artificial intelligence research.
23. *Time Magazine*. 2008. Interviewed about my work on existential risks and other areas in which the Future of Humanity Institute is active.
24. *lrytas.lt* (Lithuanian internet newspaper). 2008. Interviewed about transhumanism.
25. *Wired UK*. 2008. Interviewed about future technological developments.
26. *Sole24ore* (Italian newspaper). 2008. Interviewed about transhumanism and the study of the future of humanity and about human enhancement.
27. *Seed Magazine*. 2008. Interviewed as one among a set of “visionaries” about anticipated scientific developments over the next year.
28. *BBC Radio*. 2008. Interviewed about my work on various big picture questions for humanity and about transhumanism.
29. *Kultur Zeit* (television program broadcast in Germany, Austria, and Switzerland). 2008. Interviewed and filmed for program focusing on the FHI and my work on global catastrophic risks.
30. *BBC Radio Oxford*. 2008. Interviewed about an advance in cloning technology and its potential use to bring back extinct species.
31. *Gafencu* (magazine). 2008. Interviewed about cyberspace, virtual reality, and becoming digital.
32. *MSNBC.com*. 2008. Interviewed about global catastrophic risks.
33. *Sky Channel 200* (edge media TV). 2008. Interviewed in a program devoted to my simulation argument.

34. *Independent television documentary project*. 2008. Background interview for proposed television series on global catastrophic risks.
35. *London student documentary*. 2008. Interviewed about cognitive enhancement.
36. *Danish TV documentary*. 2008. Interviewed about transhumanism, existential risks, and human enhancement.
37. *The Independent* (UK newspaper). 2008. Interviewed for a section on visionaries.
38. *Epoca* (premier Brazilian news weekly). 2008. Interviewed about global catastrophic risks, existential risks, the great filter, the singularity, transhumanism, and human enhancement ethics.
39. *Utne Reader*. 2008. Interviewed about my work and the Future of Humanity Institute upon being named one of the “50 visionaries who are changing the world” featured in the 150-year anniversary issue of the magazine.
40. *The Future and You* (podcast). 2008. Interviewed about transhumanism, existential risks, the simulation argument, and the singularity.
41. *Bon Magazine*. (Swedish magazine). 2008. Interviewed about the science and ethics of life extension.
42. *The Scotsman* (UK newspaper). 2008. Interviewed about global catastrophic risks.
43. *Computer Shopper*. 2008. Interviewed about human enhancement and existential risks.
44. *Men’s Journal*. 2008. Interviewed in relation to some of my papers on cognitive enhancers.
45. *New Scientist*. 2008. Interviewed about the conference on global catastrophic risks organized by the FHI.
46. *BBC Radio Oxford*. 2008. Interviewed about the conference on global catastrophic risks organized by the FHI.
47. *FoxFM* (UK radio station). 2008. Interviewed about the conference on global catastrophic risks organized by the FHI in Oxford.
48. *Apocalypse How* (Discovery Channel documentary). 2008. Interviewed about my views on existential risks facing humanity.
49. *The Moral Maze* (BBC Radio 4). 2008. Participating as expert witness on the issue of performance enhancing drugs in sport and of human enhancement ethics more generally.
50. *Discovery Channel*. 2008. Interviewed about the future of machine intelligence, and about the existential risks associated with superintelligence.
51. *Venerdì di Repubblica*. 2008. Interviewed about the singularity hypothesis and the future of artificial intelligence.
52. *New Scientist*. 2008. Interviewed about current issues in bioethics.

53. *CNN.com*. 2008. Interviewed about human enhancement ethics, the singularity, and existential risks.
54. *US News & World Report*. 2008. Interviewed about human evolution, gene therapy, and human enhancement.
55. *Kerrang Radio*. 2008. Interviewed about population growth and population ethics.
56. *The Forum* (BBC Radio). 2008. Discussion program; talking about my Technology Review paper on the search for extraterrestrial life, and on the case for funding research into cognitive enhancing drugs.
57. *Cosmos* (science magazine). 2008. Interviewed about threats to civilization.
58. *Earth and Sky* (syndicated radio show). 2008. Interviewed about the science of global catastrophic risks, and about transhumanism.
59. *BBC Focus Magazine*. 2008. Interview about human evolution and its possible future directions.
60. *Science Fantastic* (nationally syndicated US radio show). 2008. Interviewed about transhumanism, human enhancement, and life extension.
61. *Les Echos* (French monthly newsmagazine). 2008. Featured in-depth interview about transhumanism, human enhancement, genetic selection, and the evolution heuristic.
62. *WBUR* (Boston area radio station). 2008. Interviewed about my article in MIT Technology Review on the Fermi paradox and the Great Filter argument.
63. *BBC Online*. 2008. Interviewed about how humans have extended life span in the past, and about the future prospects of medical science in creating further extensions of the healthy human life span.
64. *Bloomberg News*. 2008. Commenting on the significance of a new study showing potential health dangers from exposure to carbon nanotubes.
65. *Engineering and Technology Magazine*. 2008. Interviewed about aging, transhumanism, and cognitive enhancement.
66. *The Independent* (UK newspaper). 2008. Interviewed about cognitive enhancement research and the regulatory framework for pharmaceutical products.
67. *Seed Magazine*. 2008. Interviewed about cognitive enhancement.
68. *Gafencu Magazine* (Hong Kong, Beijing and Shanghai). 2008. Interviewed about human enhancement and about how new technological practises might change our self-conception at human beings.
69. *Discover* (science magazine). 2008. Interviewed about cognition enhancing drugs, their role within the medical system, and the transhumanist perspective

70. *Book about life-extension* (in preparation). 2008. Interviewed about the ethics of life extension, and about the future of artificial intelligence, and about various related ethical issues
71. *Über-Menschlichkeiten* (German book, eds. Jan-Christoph Heilinger / Markus Christen). 2008. Interviewed about the ethics and social consequences of life extension.
72. *The Observer* (UK newspaper). 2008. Interviewed about cognition enhancing drugs, their current use and future impact, and associated normative questions.
73. *Agence-France Presse*. 2008. Interviewed about ethical issues in the prospect of intimate relations between humans and robots.
74. *Short independent video documentary*. 2008. Interviewed about the larger significance of the Large Hadron Collider and the quest for the basic laws of physics.
75. *Podium* (featured segment in the journal Nature's podcast). 2008. Presenting my essay "Three Ways to Advance Science"
76. *Quo* (Mexican magazine). 2008. Interviewed about global catastrophic risks and population growth projections.
77. *The Daily Star* (2008). Interviewed about the future of artificial intelligence.
78. *The Guardian* (2008). Interviewed about ethical issues in robotics and artificial intelligence.
79. *Associated Press* (2008). Interviewed about the exclusion of Oscar Pistorius from the Olympics, and about the wider social significance of performance enhancement.
80. *2008 Edge Question*. (2007). Distributed by John Brockman, the answers for 2008 addressed the question, "What have you changed your mind about?"
81. *Cronopis* (Spanish literary magazine). 2007. Interviewed about transhumanist philosophy and my views on various future-related issues, as well as the origins of the WTA.
82. *Washington Post*. 2007. Interviewed about the potential consequences of pharmaceutical methods of reducing fear.
83. *Newton magazine* (Italian science magazine). 2007. Interviewed about transhumanism and the future.
84. *Mladina* (Slovenian weekly magazine). 2007. Interviewed about the simulation argument.
85. *BBC Radio 4*. 2007. Interviewed about BMA report on cognitive enhancement.
86. *BBC World Service* (Radio). 2007. Interviewed about cognitive enhancement techniques and related ethical and regulatory issues.
87. *Red Group Audio Business Program*. 2007. Interviewed about technological developments and future possibilities as relates to the concerns of business managers.

88. *Television documentary* (Swedish National Television, for international distribution). 2007. Interviewed about the future of human evolution, human enhancement, and existential risks.
89. *Independent film documentary*. 2007. Interviewed about the singularity hypothesis and about the simulation argument.
90. *Popular Science magazine*. 2007. Interviewed about the simulation argument.
91. *The Today program* (Radio 4). 2007. Interviewed about the future of computing and implications for society.
92. *The SciPhi Show* (webcast radio). 2007. Interviewed about transhumanist philosophy and global catastrophic risks, and about my academic work more generally.
93. *ZNET radio*. 2007. Interviewed about the simulation argument.
94. *KLPZ Radio* (US). 2007. Interviewed about the simulation argument mainly, but also about transhumanism, global catastrophic risk, the singularity, nanotechnology, and uploadin.
95. *SETI Radio*. 2007. Interviewed about the simulation argument.
96. *BBC News Website*. 2007. Interviewed about the ethics of connecting to the internet via somebody else's wireless account.
97. *Clarín* (Argentina's largest newspaper). 2007. Interviewed about my various research interests, including the implications of future technologies, human enhancement, and global catastrophic risks.
98. *NewsTalk Radio* (Ireland). 2007. Interviewed for segment about my simulation argument.
99. *Bryant Park* (National Public Radio, US). 2007. Interviewed about the simulation argument.
100. *The Believer*. 2007. Interviewed about my biography and intellectual background.
101. *New York Times*. 2007. Interviewed for article about my simulation argument.
102. *Washington Post*. 2007. Interviewed about performance enhancement in sport.
103. *TV documentary*. 2007. Interviewed about life extension and biogerontology.
104. *The Sunday Times*. 2007. Interviewed about cognitive enhancing drugs, particularly Modafinil, and its use by some academics.
105. *Ci'num* (Digital Civilizations Forum). 2007. Interviewed about existential risks, human enhancement, public engagement with emerging technologies, and utopian visions.
106. *BBC Radio 2*. 2007. Interviewed about the future of the Internet and its impacts, for the series *Why didn't I think of that?*
107. *GQ Magazine*. 2007. Long feature article on me and my work and the FHI.

108. *Times Higher Educational Supplement*. 2007. Interviewed about cognitive enhancement medicine, including practical and ethical issues, and implications for policy.
109. *Le Devoir*. 2007. Interviewed about my reactions to the Body Worlds exhibition.
110. *BBC Television*. 2007. Interviewed for two documentaries about biotechnology and nanotechnology, about expected developments in these fields and what they might mean for the future of humanity.
111. *Seed Magazine*. 2007. Interviewed about robot ethics.
112. *Toronto and Ottawa Suns* (Canadian newspapers). 2007. Asked about the future of surveillance technology.
113. *The Independent* (UK newspaper). 2007. Asked about efforts by industry to develop ethics codes for robots.
114. *L'Hebdo* (Swiss newsmagazine). 2007. Asked about cyborg technologies such as implants versus other ways of enhancing human performance.
115. *Associated Press*. 2007. Interviewed about transhumanism, future technologies, and Fukuyama's critique.
116. *Financial Times*. 2007. Interviewed about "where philosophy is going" today.
117. *BBC World Service* (radio). 2007. Commenting on three topics: the "doomsday vault" (seed bank) in Svalbard, Microsoft's "immortal computing" project, and plans to send out messages aimed for extraterrestrial civilizations.
118. *PC Plus magazine*. 2007. Interviewed about pervasive computing.
119. *Chemistry World* (magazine). 2007. Interviewed about the ethics of life extension research in conjunction with a forthcoming paper in the journal *Rejuvenation Research*.
120. *Utildnings Radion* (Swedish educational radio). 2007. Interviewed about the future of human evolution, the impacts of transformative technologies, and transhumanist ethics.
121. *CLOSER TO TRUTH* (public television / PBS series). 2007. Four-hour interview covering topics for many aspects of my work, with material to be included in at least five programs: the simulation argument, anthropic reasoning, the future of intelligent life, multiverse theories, the Doomsday argument, etc.
122. *Drivetime With Dave Fanning on RTE Radio One* (Irish radio). 2007. Interviewed about human enhancement and nanotechnology.
123. *Urbania* (Montreal-based magazine). 2007. Short interview about what the priorities should be on the environmental agenda.
124. *Boston Globe*. 2007. Interviewed about existential risks, and about the invocation of the term "existential threat" in relation the war on terror.

125. *San Diego Union-Tribune*. 2007. Interviewed about human evolution and its possible future directions.
126. *The Sunday Herald* (Scottish newspaper). 2007. Interviewed about life-extension and transhumanism.
127. *Drivetime With Dave Fanning on RTE Radio One* (Irish radio). 2007. Interviewed about the simulation argument.
128. *Odd at Large* (Swedish Magazine). 2007. Interviewed about the activities of the Oxford Future of Humanity Institute, global catastrophic risks, and the simulation argument.
129. *BBC Focus Magazine*. 2007. Interviewed about the simulation argument.
130. *Fast Thinking* (Australian magazine). 2007. Interviewed about DNA technology and about the possibility of eradicating aging and disease.
131. *The Today Programme* (BBC Radio 4). 2007. Interviewed about the role of instincts and moral intuitions in bioethics and discussions about human enhancement.
132. *McCalmont's web forum*. 2006. Interviewed about my background and miscellaneous topics.
133. *The Today Programme* (BBC Radio 4). 2006. Interviewed about gene doping and performance enhancement in sport.
134. *Discovery Channel* (United States). 2006. Interviewed about cyborg technology, uploading, and the future of humanity.
135. *PIMM* (book blog). 2006. Interviewed about life extension.
136. *BBC Focus Magazine*. 2006. Interviewed about cosmological problems and the simulation argument.
137. *Personal Computer World*. 2006. Interviewed about transformative future technologies.
138. *Mongrel Magazine*. 2006. Interviewed about transhumanism.
139. *Cryonics Magazine*. 2006. Interviewed about ethical issues related to the practise of cryonic suspension.
140. *BBC Radio 3*. 2006. Hour-long debate about the future of human enhancement and robotics, part of the BBC Festival of Ideas in Liverpool.
141. *The Times*. 2006. Interviewed about human enhancement and associated ethical issues.
142. *Independent documentary film*. 2006. Interviewed about future energy sources.
143. *Nature*. 2006. Interviewed about the conference TransVision 2006 and my presentations therein.
144. *Italian National Television*. 2006. Interviewed about the future and about philosophical questions related to artificial intelligence and human enhancement.

145. *New Scientist*. 2006. Interviewed about my work on the evolution heuristic.
146. *BBC Radio Five*. 2006. Interviewed about performance enhancement in sport.
147. *Monthly Vision* (Italian magazine). 2006. Interviewed about artificial intelligence and where it will go in the future.
148. *Maxim magazine*. 2006. Interviewed about future technologies and body modification.
149. *CNN Future Summit*. 2006. Interviewed about the present state of artificial intelligence and its future prospects
150. *National Journal*. 2006. Interviewed about the future of intelligent machines, the possibility of a technological singularity, and the implications for governance and public policy.
151. *The Times* (UK newspaper). 2006. Interviewed about life-extension research and the desirability of longer life.
152. *The Times* (UK newspaper). 2006. Interviewed about memory and how new technology may change the demands on human memory.
153. *Wellcome Trust science museum*. 2006. Background interview about cognitive enhancers.
154. *Technocalypse* (film documentary). 2006. Interviewed about status quo bias, human rationality, and human enhancement.
155. *The Sunday Times*. 2006. Interviewed about the impacts of growing up with digital technology on brain development and psychology.
156. *Human Values in a Transhuman World* (radio documentary). 2006. About ethics, human enhancement, and new technologies.
157. *Meme Therapy* (blog). 2006. Interviewed about transhumanism and related issues.
158. *The Next Paradigm* (TV documentary). 2006. Interviewed about the singularity and the future of artificial intelligence.
159. *TV documentary*. 2006. On transhumanism and related issues.
160. *French Feature Film*. 2006. Interviewed about aging and life-extension.
161. *Autopilots* (TV documentary). 2006. Interviewed about the future of robotics and artificial intelligence.
162. *Bon Magazine*. 2006. Interviewed about memory enhancing and memory deleting drugs and their social and ethical ramifications.
163. *Isis Magazine*. 2006. Interviewed about what kinds of technological change students alive today can expect to experience in their lifetime.

164. *Eureka* (French magazine). 2006. Interviewed about human nature.
165. *Muy interesante* (popular science magazine for Central America). 2006. Main feature (15-20 pages) on my work on existential risks.
166. *The Observer* (UK newspaper). 2006. Interviewed about my RSA lecture and the prospects of human enhancement technologies.
167. *Galileu* (Brazilian science magazine). 2006. Interviewed about the science of life extension.
168. *Guardian* (UK newspaper). 2006. Feature interview about the work of the Oxford Future of Humanity Institute, and about transhumanism.
169. *CNN Future Summit*. 2006. Interviewed about a variety of future-related topics.
170. *The Meaning of the 21st Century* (TV documentary). 2006. Reading from my "Letter from Utopia"
171. *Philosophy Now*. 2006. Interviewed about David Pearce's work.
172. *CBC* (Canadian Broadcasting Corporation television). 2006. Interviewed about the future of aging.
173. *Science & Avenir* (French science magazine). 2006. Interviewed about the Future of Humanity Institute and transhumanism.
174. *London Update*. 2006. Interviewed about transhumanism.
175. *ABC News documentary*. 2006. Interviewed about global catastrophic risks and threats to human survival.
176. *The Future* (Dutch National Television). 2006. Followed for one day and interviewed about my work and about transhumanism.
177. *BBC World Service*. 2006. Interviewed about aging and life-extension.
178. *The Today Program* (Channel 4, UK Radio). 2006. Interviewed about human enhancement.
179. *Good Morning Scotland* (BBC Radio). 2006. Interviewed about life-extension.
180. *Radio Oxford*. 2006. Interviewed about the ethics and science of life-extension.
181. *Catastrophe* (UK magazine). 2006. Interviewed about the Future of Humanity Institute and its interdisciplinary work.
182. *Volkskraut* (Dutch newspaper). 2006. Interviewed at length about my work, and about human enhancement technologies.
183. *Discover Magazine*. 2006. Interviewed in relation to Nature publication on the cosmic disaster frequency.

184. *The Sunday Times*. 2005. Interviewed about the ENHANCE project.
185. *Die Welt*. 2005. Interviewed in relation to Nature publication on the cosmic disaster frequency.
186. *USA Today*. 2005. Interviewed in relation to Nature publication on the cosmic disaster frequency.
187. *New Scientist*. 2005. Interviewed in relation to Nature publication on the cosmic disaster frequency.
188. *Philosopher's Magazine*. 2005. Asked about the Future of Humanity Institute.
189. *Gestión*. 2005. Profiled in an article on thinkers "whose ideas are having or will have a large impact in the business landscape"
190. *Science and Spirit*. 2005. Interviewed about the anthropic principle and cosmology
191. *Science and Theology News*. 2005. Interviewed about the anthropic principle and Leon Susskind
192. *La Revue mensuelle*. 2005. Interviewed about myself and about transhumanism.
193. *TV Documentary*. 2005. Interviewed about artificial intelligence and its future prospects.
194. *Chemical & Engineering News*. 2005. Interviewed about the simulation argument.
195. *NanoAging*. 2005. Interviewed about life-extension and related matters.
196. *Boston Globe*. 2005. Interviewed about the future of artificial intelligence.
197. *Gehirn & Geist*. (German edition of Scientific American Mind). 2005. Interviewed about cognitive enhancers.
198. *National Journal*. 2005. Interviewed about global catastrophic risk.
199. *Discovery Channel*. 2005. Interviewed about the simulation argument and about whether there is extraterrestrial life.
200. *Independent film company*. 2005. Interviewed for trailer, on the possibilities of the 21st century.
201. *Mens Health* (Russia). 2005. Interviewed about future possibilities.
202. *Independent filmmaker*. 2005. Interviewed for documentary on transhumanism.
203. *Conference video for Transvision05*. 2005. Interviewed about transhumanism and bioethics.
204. *Tecnohumano fundacion video*. 2005. Interviewed about transhumanism and the developing world.
205. *Conference video for Transvision05*. 2005. Interviewed about transhumanism in general.
206. *Radio lab WNYC*. 2005. Interviewed about transhumanist philosophy.
207. *The Guardian*. 2005. Interviewed about future prospects for humanity.

208. *Channel 4*. 2005. Consulting for planned documentary on future humans.
209. *Hartford Courant*. 2005. Interviewed about transhumanism.
210. *Mail of Sunday*. 2005. Interviewed about artificial intelligence and the CYC project.
211. *Spanish Transhumanist Gazzett*. 2005. Interviewed about transhumanism.
212. *BBC News* (television). 2005. Interviewed about cosmetic neurology.
213. *Swedish Radio*. 2005. On the simulation argument.
214. *Daily Telegraph*. 2005. About the launch of the Oxford Centre for the Science of the Mind.
215. *Press Conference*. 2005. For UK newspapers in London, about the launch of the Oxford Centre for the Science of the Mind.
216. *Discover Magazine*. 2005. On observation selection effects and traffic analysis.
217. *Philosophy: The State of the Art* (popular book on living philosopher). 2005. Interviewed about my work for, by the author, Nicholas Fern.
218. *What We Still Don't Know* (TV documentary, channel 4 and PBS). 2005. Interviewed about the simulation arguments and artificial intelligence.
219. *Discover Magazine*. 2005. Interviewed about traffic analysis and observation selection theory.
220. *Revue Vivant*. 2004. Interviewed about transhumanism.
221. *Atlantic Books*. 2004. Interviewed by Nicholas Fearn for "Philosophy: The State of the Art".
222. *Der Spiegel*. 2004. Interviewed about my simulation argument.
223. *The Sunday Times*. 2004. Interviewed about the simulation argument.
224. *This Magazine* (Canadian). 2004. Interviewed about transhumanism.
225. *The Oxford Student*. 2005. Interviewed about neuropharmacology and the ethics of cognitive enhancers.
226. *The Financial Times Magazine*. 2004. Interviewed about transhumanism.
227. *The Times* (UK newspaper). 2004. Interviewed about cognitive enhancements and cosmetic neurology.
228. *Equal Time for Freethought* (US radio station). 2004. Interviewed about the future of the human condition.
229. *CBC* (Canadian TV documentary). 2004. On transhumanism and the Transvision04 conference.

230. *Le Devoir* (Canadian newspaper). 2004. Interviewed about transhumanism.
231. *Now Magazine*. 2004. Interviewed about transhumanism.
232. *Legal Affairs Magazine*. 2004. Interviewed about ethical and legal rights for machines.
233. *GQ Magazine*. 2004. Interviewed about future human modification technologies.
234. *The New York Times Magazine*. 2004. Interviewed about global catastrophic risk.
235. *The Matrix: Philosophy* (DVD documentary). 2004. Interviewed about transhumanism, ethics, and future technologies.
236. *Belgian National Television*. 2004. Guest on discussion program about human enhancement.
237. *HUMO* (Belgian magazine). 2004. Interviewed about the ethics of human enhancement technologies
238. *Nanotechnology Now* (magazine). 2004. Interviewed about strategic security issues in nanotechnology, and about transhumanism.
239. *LA Times* (US newspaper). 2004. On the alertness-enhancing drug modafinil.
240. *The Meaning of the 21st Century* (US public television). 2004. Interviewed by James Martin on transhumanism, human extinction scenarios, and future technologies.
241. *Morning Call* (US Newspaper, Allentown, PA). Interviewed about long-term threats to human survival.
242. *Times Weekend Review* (UK newspaper). 2004. Philosophy trivia.
243. *Sunday Times* (UK newspaper). 2004. Interviewed about cryonics.
244. *Vancouver Courier* (Canadian newspaper). 2003. Interviewed about Christmas.
245. *SVT* (Swedish National Television). 2003. Interviewed about the future and the simulation argument.
246. *Horizon* (BBC Television). 2003. Interviewed about my simulation argument.
247. *Yale Medicine Magazine*. 2003. Interviewed about enhancement medicine.
248. *United Press International*. 2003. Interviewed about Mr. Schwarzenegger's candidacy and the ethics of human enhancement technologies.
249. *Seed Magazine* (Canada). 2003. Interviewed about my role in the transhumanism movement.
250. *La Voz Asturias* (Spanish newspaper) 2003. Interviewed about the simulation argument.
251. *BBC Radio*. 2003. Interviewed about the simulation argument.

252. *BBC Radio*. 2003. Interviewed about transhumanism.
253. *PBS TV Documentary*. 2003. Interviewed by Dina Guttman for forthcoming documentary on transhumanism.
254. *Joel Garreau*. 2003. Interviewed about myself and transhumanism for his forthcoming book.
255. *Los Angeles Times*. 2003. Interviewed about technology, ethics, biopolitics, and transhumanism.
256. *Documentary (University of Westminster, London)*. 2003. Interviewed about the ethics of human genetic engineering.
257. *Radio Chicago WKQX*. 2003. On the film *The Matrix*.
258. *Eesti Ekspress* (Estonian weekly magazine). 2003. Interviewed about the simulation argument.
259. *Folkradion* (Swedish national radio). 2003. Interviewed about the simulation argument.
260. *Zara, Troy, and Bernie in the morning* (Radio, Western Australia). 2003. Chatting about this and that and the simulation argument
261. *P1* (Swedish national Radio). 2003. Interviewed about the simulation argument.
262. *Radio Perth*. 2003. Interviewed about the simulation argument.
263. *Radio Atlanta*. 2003. On the simulation argument.
264. *SAFM Radio* (South Africa). 2003. On the simulation argument.
265. *CHQR Radio* (Alberta, Canada). 2003. On the simulation argument.
266. *CFRB Radio, The John Oakley Show* (Canada). 2003. On the simulation argument.
267. *Red FM (Cork, UK)*. 2003. On the simulation argument and the future.
268. *Radio WLLW The WALL 99.3*. 2003. On the simulation argument.
269. *Radio Dublin*. 2003. Guest on the *Matrix* and the simulation argument.
270. *Wireless Flash News Service*. 2003. Interviewed about the simulation argument.
271. *Super Interessante* (Brazilian science and technology magazine). 2003. Interviewed about the simulation argument.
272. *BBC Radio Four*. 2003. Interviewed about observation selection effects in traffic analysis.
273. *The Daily Mail* (British newspaper). 2003. Interviewed about the simulation argument.
274. *The New Yorker*. 2003. Interviewed about philosophical issues in multiverse cosmology.

275. *Big Issue* (UK magazine). 2003. Interviewed about the transhumanist movement.
276. *Empire* (Magazine). 2003. Interviewed about the simulation argument and the new Matrix film.
277. *Sesame* (Open University Newsletter). 2003. Featured about a lecture on observation selection effects.
278. *WHPK Radio, University of Chicago*. 2003. Interviewed about human cloning.
279. *Washington Post*. 2002. Interviewed by Linton Weeks on the past and future development of life.
280. *Fox News* (television). 2002. Interviewed live on stem cells research and human cloning.
281. *Southern News Chain* (Canadian newspaper network). 2002. Interviewed about reproductive cloning and the future of genetics.
282. *News Talk Dublin* (Radio). 2002. Interviewed about human cloning.
283. *Maariv* (Israeli daily newspaper). 2002. Interviewed about the simulation argument.
284. *Salon magazine*. 2002. Interviewed about existential risks, threats to human survival.
285. *Hartford Courant* (newspaper). 2002. Interviewed about the simulation argument.
286. *Orlando Sentinel* (newspaper). 2002. Interviewed about the simulation argument.
287. *Red FM* (Irish radio station). 2002. Interviewed about transhumanism.
288. *World Weekly News* (US tabloid). 2002. Article on the simulation argument.
289. *The Great Unknown* (US radio show). 2002. Two-hour special guest, about my views on the future of humankind etc.
290. *To the Best of our Knowledge* (syndicated US radio show). 2002. Interviewed about the simulation argument.
291. *New Scientist*. 2002. They did a feature article about my simulation argument.
292. *The Daily Telegraph* (UK newspaper). 2002. About the simulation argument.
293. *Jeff Rense* (US coast-to-coast radio). 2002. Two-hour show about transhumanism.
294. *Todd Mundt Show* (US radio). 2002. About the simulation argument and the film Matrix.
295. *Art Bell* (radio show). 2002. Three-hour special guest, about transhumanism and the future.
296. *Sensoria* (online magazine). 2002. About transhumanism.
297. *BBC Radio Asia*. 2002. About the simulation argument.

298. *KIJK* (Dutch magazine). 2002. About the simulation argument for a youth readership.
299. *CBS Radio*. 2002. About the simulation argument.
300. *BBC Radio*. 2002. Interviewed about the idea that we might be living in a computer simulation.
301. *Metro London Newspaper*. (UK newspaper). 2002. In connection to my paper on the simulation argument.
302. *BBC Three Counties Radio*. 2002. Interviewed about my simulation argument.
303. *Waterbury Republican-American*. 2002. Interviewed about cryonics.
304. *The New Yorker*. 2002. Interviewed about traffic analysis and observation selection effects.
305. *Life Positive Plus* (Indian Magazine). 2002. Interview about technology, evolution, and the future of humanity.
306. *Washington Post*. 2002. Interviewed by Rick Weiss on issues relating to human cloning.
307. *TV2 RTM* (Malaysian national television). 2002. On reproductive vs. therapeutic cloning.
308. *Changesurfer Radio*. 2002. Interviewed about my book *Anthropic Bias*, and about the World Transhumanist Association.
309. *Nanotechnology Now*. 2001. Interviewed about nanotechnology and technological progress.
310. *Real Life* (US TV program on TV8). 2001. Debating and fielding callers' questions about therapeutic cloning and stem cells research.
311. *The New Journal*. 2001. Interviewed about my efforts to introduce a course on the future of humanity into the curriculum.
312. *Nanomagazine.com*. 2001. Interviewed about artificial intelligence.
313. *WebMD Medical News*. 2001. Interviewed about artificial intelligence.
314. *Scholastic Scopes Magazine*. 2001. Interviewed on cloning.
315. *RNN-TV* (US television news network). 2001. Live on cloning.
316. *BBC Radio Wales*. 2001. Human cloning.
317. *610-WTVN*. (US talk radio network). 2001. Human cloning and genetic engineering.
318. *BBC World Service* (Radio). 2001. Discussion on cosmological fine-tuning and the anthropic principle.
319. *Discovery Channel* (Canada). 2001. Interviewed about the future of humanity.
320. *Tech (web TV)*. 2001. Interviewed about artificial intelligence and uploading.

321. *Ne(x)t Text* (press agency). 2001. Interviewed about transhumanism.
322. *Vision* (Swedish magazine). 2001. Interviewed about transhumanism.
323. *Rank* (London-based fashion magazine). 2001. Portrayed and interviewed.
324. *WRRN* (American cable-TV news network). 2001. Interviewed live on the ethics of human cloning.
325. *Aftershock* (Australian National Television). 2001. Interviewed about transhumanism and my views on the nanotechnology, the ethics and science of life-extension, mood drugs, and future of artificial intelligence.
326. *Heart of the Matter* (BBC television). 2000. On ethical and scientific issues related to life-extension research and a possible cure for aging. Writing and presenting the first half of the program, and partaking in a studio debate in the second half.
327. *Changesurfer Radio*. 2000. Half-hour interview by Dr. J. Hughes about my philosophical research.
328. *LSE News and Views*. 2000, Vol. 22, No. 3, p. 1. Feature on my work on observation selection effects, and on my being awarded the John Templeton Foundation grant.
329. *Work Predictions* (BBC television). 2000. Interviewed about virtual reality and teleworking.
330. *BBC Radio*. 2000. Interviewed by Jeremy Grange about technical, philosophical and social aspects of mind uploading.
331. *Resonance Publications*. April, 2000. Feature-length interview on analytic philosophy, transhumanism, education, and government. Republished by *Pantaneito Forum* (online magazine) in 2002.
332. *The World Wide Web Radio Show* (U.S. talk radio network, Redband Broadcasting). 2000. Interviewed about transhumanism and the impact of future technologies.
333. *London Radio & Associated Press Television News*. Interviewed about transhumanism and life-extension. 2000.
334. *LSE News and Views*. 2000, Vol. 21, No. 10, p. 1. Feature on my views on the philosophy of technology, particularly regarding life-extension.
335. *Rage against the Machines* (Documentary). 2000. Interviewed by Karen Powell.
336. *The Analytics*. 1999. Hosted an intellectual talk show on PULSE radio.
337. *The Today Show* (BBC radio). 1999. Interviewed by Mike Thomson about the impact of future technologies, especially artificial intelligence.
338. *Sunday Times* (UK national newspaper). 1999. Interviewed by Martin Wroe about the consequences of artificial intelligence and molecular nanotechnology.

339. *Web Heads*. 1999. Featured in episodic television series. Producer: Wally & Murk Corp.
340. *Haaretz* (Israeli national newspaper). 1999. Interviewed about transhumanism.
341. *New Scientist*. Jun 6, No 2137, pp. 26-30, 1998. Interviewed about physicist Max Tegmark's Theory of Everything.
342. *Radio Debate*. London, Oct 21, 1998. About public policy on smoking.
343. *The Alberta Report* (Canadian newspaper). Apr 27, 1998. Interviewed about transhumanism.
344. *Channel 5* (UK national television). 1997. Doing stand-up comedy.
345. *Helsingborgs Dagblad* (Swedish newspaper). 1992. Interviewed about my art exhibition.
346. *Sydsvenska Dagbladet* (Swedish newspaper). 1992. Interviewed about my art.
